WATER TEST PLAN ADDENDUM, GROUNDWATER REMEDIATION, BOEING REALTY CORPORATION, FORMER C-6 FACILITY, 19503 NORMANDIE AVENUE, LOS ANGELES (FILE NO. 95-036)

Dear Mr. Mossman:

We have reviewed the "Water Test Plan (Addendum)" dated June 28, 2004, prepared by Arcadis G&M, Incorporated. Boeing has applied for and received General Waste Discharge Requirements for the injection of a carbohydrate solution into the groundwater beneath the C-6 facility to remediate volatile organic compounds. Boeing constructed a network of injection wells and associated piping beneath the Building 1/36 and Building 2 areas and Boeing injected water to test the hydraulic performance of the Building 2 injection network pursuant to the Water Test Plan dated May 18, 2004, which was approved by the Regional Board on May 21, 2004.

The Water Test Plan (Addendum) Boeing proposes to conduct a subsequent test of the Building 1/36 injection system following the same procedures as previously approved. The existing site-wide groundwater-monitoring program is adequate to monitor groundwater quality and flow conditions across the site and no additional monitoring requirements are necessary for the additional wells to be tested.

We have completed our review of the Water Test Plan (Addendum) and approve its implementation. Please submit report containing the results of the water testing by **December 31, 2004**. Please call me at (213) 576-6737 if you have any questions.

Sincerely,

John Geroch
Associate Engineering Geologist
Site Cleanup Unit
